PROFESSIONAL SUMMARY

Motivated and detail-oriented MCA graduate with strong foundation in full stack development, programming, and database management. Skilled in building responsive and scalable web applications using modern technologies like JavaScript, Python, React, and SQL. Passionate about problem-solving, AI-driven solutions, and continuously learning new technologies. Seeking an entry-level software development role to contribute technical expertise and grow professionally.

EDUCATION

Degree	Institution	University	Year	CGPA
Master of Computer Applications (MCA)	DNR College	Adikavi Nannayya University, Rajahmundry	2024 – 2026	7/10
Bachelor of Science (Computer Science)	Aditya Degree College	Adikavi Nannayya University, Rajahmundry	2020 – 2023	6.6/10

TECHNICAL SKILLS

Frontend:
HTML5, CSS3, JavaScript, React.js

Backend:
Python (Flask/Django), java

Database:
MySQL

Tools & Platforms:
Git, GitHub, VS Code, Postman

Other Skills:
REST API Development, Responsive Design, Debugging, Problem Solving, Data Structures Basics

WORK EXPERIENCE

Java Full Stack Developer Intern

Zemoso Technologies | Hyderabad | [June, 2026] – Present

Full-Stack Development: Built responsive UIs using React, HTML, CSS, and JavaScript integrated with Java & Spring Boot backends.

API & Database Engineering: Developed REST APIs and executed optimized SQL queries for seamless database management (DBMS).

Version Control & Collaboration: Managed source code, branching, and pull requests using Git and GitHub.

Problem Solving: Applied data structures and algorithmic problem-solving to debug code and optimize application performance.

PROJECT EXPERIENCE

AI-Powered SQL Query Generator & Optimizer

 IJESAT Technologies |  Jan 2026 – Mar 2026

- Developed an NLP-based module to convert natural language input into SQL queries using libraries like NLTK and spaCy.
- Designed a responsive UI using HTML, CSS, and JavaScript for seamless user interaction.
- Integrated backend (Flask/Django) with MySQL/PostgreSQL for executing dynamic SQL queries.
- Implemented optimization techniques to improve query performance (joins, indexing, filtering).
- Conducted unit testing and integration testing to improve system reliability.
- Maintained project documentation, UML diagrams, and version control using Git & GitHub.

Technologies Used:

Python, Flask/Django, HTML, CSS, JavaScript, MySQL/PostgreSQL, NLP (NLTK, spaCy), Git

ACHIEVEMENTS & ACTIVITIES

- Participated in multiple inter-college coding competitions
- Solved 100+ coding problems on online platforms (LeetCode/HackerRank equivalent)
- Active member of college technical club
- Developed hands-on experience in real-time project development
- Consistently improved debugging and problem-solving skills through practice

INTERNSHIP / TRAINING (Optional Enhancement)

- Completed training in full stack/web development concepts
- Gained exposure to REST APIs, version control, and deployment basics

SOFT SKILLS

- Strong analytical and problem-solving abilities
- Good communication and teamwork skills
- Quick learner with adaptability to new technologies
- Time management and attention to detail

CAREER OBJECTIVE

To secure a challenging position in a reputed organization where I can apply my full stack development skills, enhance my technical knowledge, and contribute effectively to organizational success while growing professionally.

Thank You

Sai ManikantaReddy.V
